## THE DAILY CAPITAL JOURNAL

PUBLISHED BY

CAPITAL JOURNAL PRINTING CO., Inc.

CHARLES H. FISHER

EDITOR AND MANAGER

PUBLISHED EVERY EVENING EXCEPT SUNDAY, SALEM, OREGON

## SUBSCRIPTION RATES:

Daily, by Carrier, per year	\$5.20	Per month	45c
Daily, by Mail, per year	4.00	Per month	35c
Weekly, by Mail, per year	1.00	Six months	50c

## FULL LEASED WIRE TELEGRAPH REPORT

The Capital Journal carrier boys are instructed to put the papers on the porch. If the carrier does not do this, misses you, or neglects getting the paper to you on time, kindly phone the circulation manager, as this is the only way we can determine whether or not the carriers are following instructions. Phone Main 92.

## PATRIOTS AND CONTRACTORS.

IT HAS been shown pretty conclusively that the German Krupps, the French Creusots and Sneider's, the English Maxims, the American Steel Trust and the Japanese war manufacturers are all united in one international band for the purpose of manufacturing war spirit and machine guns, dreadnaughts and war scares, patriotic statesmen and profitable contracts. In each of the countries named it has been found that the men who profited most from the manufacture of war materials were in government positions where they not only could but did manufacture war scares. It has been demonstrated that "war secrets" were peddled from nation to nation. Senator Dupont, as chairman of the military committee, helps to furnish war news while the Dupont Powder Company sells powder to both nations in case of war. In all these countries a close connection has been found between these war encouragers and the press that shrieks for war.

In this connection the Milwaukee Leader says: "A German armament firm supplies 'war news' to French papers to secure bigger appropriations in Germany. A Japanese gun works has the correspondent on its payroll to help fan the war scare with the United States, and fill the pockets of its own directors and those of its ally, the American-Steel Trust."

"Such is the war industry of today. Of such stuff are our patriots made. From such material is created the national hatreds that would send millions of workers to be slaughtered to make a steel trust dividend."

## PRICES WILL REMAIN HIGH.

WHETHER the farmer is getting a reasonably large proportion of the price of raw products paid by the consumer, is not by any means certain, but the average value of what he gets from an acre of land is about twice what it was twenty years ago. The average yield per acre of twelve important crops for the years 1894-5 was \$8.12 per acre. The average for 1913 was \$16.31. Neither tariff reduction nor any other influence is likely to make any marked reduction in farm prices. We are bringing lots of corn from Argentina and are also importing cargoes of meat. While these seem large to glance simply at the figures, yet they are infinitesimal when considered in the light of the fact that we are a nation of 100,000,000. Population steadily and profitably employed, is what makes prices and business. As long as the people increase faster than the productive powers of land and the labor thereon, so long will prices keep on the high level. With the tide of immigration unchecked, and with the probability of its being still further increased, no lowering of prices or foodstuffs can be looked for in America for many years yet. While America is not yet producing one-half of the foodstuffs of which she is capable under present methods, still the population increases faster than new lands are brought under cultivation, or old lands made more productive. With intensified farming, and the utilization of all lands in the United States, it is claimed the yield of food products from the farms can be more than quadrupled. It is estimated further that this country can easily support a population five or six times as large as that we now have. Here in Oregon we can support thirty times our present population and then have room for more.

W. S. U'Ren spoke in the Methodist Episcopal church at Oregon City, Sunday evening, his subject being: "The Needs of Oregon as I See Them." The trouble with U'Ren is that he sees so many things he thinks Oregon needs that the state can't keep up with him. One thing though, it is positive about, and that is that the greatest need of the state is a smaller supply of U'Ren ideas.

According to the dispatches, Huerta has both money and men. It is probable the money will stick to him to the last, but that the men will do so is at least doubtful.

## LADD &amp; BUSH, BANKERS

Transact a General Banking Business  
Safety Deposit Boxes  
Traveler's Checks

Edison thinks a study of the bee is more profitable than examining into the ways of the ant as Solomon suggested. While it is somewhat nervy to try to improve on what Solomon advised, it is certain the bee has a way of impressing one that is unknown to the ant.

That message sent by Balloonist Morrison was not only indefinite but misleading. It read: "Lost in the Oregon woods," while it should have stated that the pair were lost in a settler's clearing.

Grant Dimick failed to get the nomination for governor, but he has a bigger and better job financially, having been elected president of the Willamette Valley Southern railroad.

California's railroad commission is giving the Pullman company a straight tip that it must cut out the tipping system.

Former President Diaz, of Mexico, is not worrying as to whether he can "come back."

## THE ROUND UP.

While speeding down a hill near Oregon City Sunday night, the tire on an auto driven by Dr. Guy Mount exploded. The auto turned a complete somersault, and the doctor and his companion were thrown, fortunately, clear of the machine. The doctor suffered a broken collarbone.

Petitions are being circulated in Hood River calling for an election to vote upon a bond issue of \$75,000 for the purpose of completing the Columbia highway between the town of Hood River and the western boundary of the county at Cascade Locks.

William Fleisher, one of Portland's prominent pioneers, died at his home in that city Sunday of paralysis. Interment Tuesday.

Raymond Ellis, a farmer, 24 years old, was drowned in Columbia slough Saturday night. He was in swimming with four companions when he was seized with a cramp and sank before help could reach him.

Seventeen girls and nine boys were graduated from The Dalles high school Friday.

Nearly all the fraternal organizations in Pendleton joined in attending services at the First Christian church Sunday night, there being special services in honor of "Flag Day."

The auto races at Portland Sunday ended with an accident resulting in the death of Walter McKay, a boy, who was crushed to death between two cars.

One of the heaviest rain rains on record in that section visited Pendleton Sunday. Some damage was done alfalfa and other crops in the way of causing them to fall, but on the whole the rain was beneficial.

McMinnville republicans have elected a central committee and other officials and are ready for the coming campaign.

J. E. McConell, of Lake county, has arrived home from Wisconsin, bringing two cars of young Holstein stock, mostly two-year-olds.

Aubrey Watts, son of S. D. Watts, of Rye valley, was caught under a moving machine Thursday, and one foot was cut off while the other was badly cut in many places. He will recover, and it is thought the one foot can be saved.

## SECTIONS REPRESENTED IN GRADUATING CLASS

Oregon Agricultural College, Corvallis, Ore., June 16.—Graduates of this year's class at the Agricultural college represented 21 different counties in Oregon with a total of 127 students. Next to Benton county, which furnished the largest number, comes Multnomah with 20 representatives. Marion county is next with 11. Then Clackamas, Linn and Umatilla with 4 each; Douglas, Jackson and Washington with 3 each; Lake, Lane, Polk, Wallowa and Wasco with 2 each; and Clatsop, Harney and Lincoln with 1 each.

There were also represented 11 states other than Oregon, with a total of 38 students. California led with 20, followed by Washington with 7. New York and Idaho were each represented by two students, and Delaware, Indiana, Iowa, Kentucky, Massachusetts, Mississippi and Texas had one representative each.

There were but two graduates who are residents of foreign countries and these both came from our neighboring state, Canada.

## PROGRESS IS SATISFACTORY.

Washington, June 16.—"I consider that satisfactory progress is being made at Niagara Falls," said Secretary of State Bryan, on his way to attend the cabinet meeting today. "In matters of this kind," he added, "speed is out of the question."

The secretary would not talk concerning reports that the differences of opinion between the American-Mexican peace negotiators were so serious that a successful outcome of the conference was impossible.

All he would say was: "I have consistently refused to dignify sensational newspaper stories by discussing them. We are still participating in mediation negotiations and continue hopeful of complete success ultimately."

## The Cow

When summer comes the poor old cow finds shedding hard and comforts few; deep lines of trouble crease her brow, for grief is hers, the season through. Ten million flies light on her back, ten million more are on her legs, and every place the hide is black, they build their nests and lay their eggs. All day she wields her weary tail, and sweats in husky lowing tones; what few deep lines of wonder if she kicks the pail, or tries to break the milk's bones? Alas, the milk pailers not upon the woe that gave her baby, he coaches for a wet elm hut and plays a solo on her slats. We should be patient with the cow when flytime drives the bonnet insane, for every minute, while they browse, they suffer many kinds of pain. If Bossy kicks you on the chin, or puts her tribe in the pail, or tries to drive your waisters in by blows repeated with her tail, don't let your angry passions rise, or for a large spiked bludgeon reach, but gently brush away the flies, and tell the critic she's a peach. Then put your mangled face in splints, and write a screed, serene and wise, insisting that the public prints should call on folks to swat the flies.

## GREEKS TO FIGHT BY SEA.

Vienna, June 16.—If there is war between Greece and Turkey, which is thought more than likely, it was understood here today that the Greeks will do their utmost to wage it by sea.

Turkey, it was pointed out, has practically no navy at all, while Greece has a tolerably efficient though a small one. It was very much doubted here if it will be able to get any of its fighting ships through the Dardanelles, but it was agreed that if it succeeded in doing so and bombarding Constantinople, the Turkish command probably would have their work cut out for them close at home without undertaking an invasion of the enemy's territory.

Today's accounts from both Constantinople and Athens indicated great military activities at Athens.

The declaration of hostilities if it comes was looked for from Greece, but it was considered here that it is Turkey which has tried to force war.

The idea of fresh Balkan fighting was exceedingly unwelcome here and advice from other cancelleries made it clear that it was elsewhere regarded with deep disfavor, the conflict of interests in southeastern Europe being so great that trouble there is always deemed a threat of complications among outsiders.

## FUNDS HELD IN TRUST ARE A PRIOR LIEN

Chicago, June 15.—Assistant United States District Attorney Fleming today notified the directors of the suspended LaSalle Street Trust and Savings Bank that the funds it held in trust for previous receivers in federal bankruptcy proceedings must be considered a prior lien on the concern's assets.

He gave warning that if this notice were disregarded and a cent of bankruptcy funds were unaccounted for every official of the bank would be cited for contempt of court.

The city treasurer also made a formal demand for \$1,000,000 of municipal funds deposited in the Lorimer banks.

Vice-President Mundy of the LaSalle Street Bank said a group of financiers had offered to furnish the institution with \$1,000,000 and he was confident the state examiner would allow it to reopen.

## WOMEN WATCH THE CLOCK

In our stores and factories for that blessed hour when the day's work ends. The reason is readily seen, as the nature of their duties too often drifts them into the horrors of all kinds of organic troubles peculiar to women, causing backaches, headaches, nervousness and irritability. Lydia E. Pinkham's Vegetable Compound, a simple remedy, made from roots and herbs, may be relied upon to overcome these troubles.

Eleven miles of subways are being considered to solve Liverpool's congested traffic problem.

## TO LOOK AND FEEL

## BRIGHT IN HOT WEATHER

This is the season when she who would have a lily-white complexion should turn her thoughts to mercurized skin. Nothing is so effective in overcoming the soiling effects of sun, wind, dust and dirt. The wax literally absorbs the scorched, discolored, freckled, withered or congested cuticle, bringing forth a brand new skin, clear, soft and girlishly beautiful. It also unclogs the pores, removing blackheads and increasing the skin's breathing capacity. An ounce of mercurized wax, obtainable at any drug store, applied nightly like cold cream, and washed off mornings, will gradually improve the worst complexion.

When depressed by the heat and you want to freshen up for the afternoon or evening, bathe the face in a lotion made by dissolving an ounce of powdered suxolite in a half pint of witch hazel. You'll find this more refreshing than an hour's rest. It is fine for smoothing out wrinkles, even the deeper ones.

## America Disturbing Factor In World Peace

By Professor LEO S. ROWE of University of Pennsylvania

THE LACK OF INTEREST ON THE PART OF THE PEOPLE OF THE UNITED STATES IN QUESTIONS OF FOREIGN POLICY, THE FAILURE OF THE UNITED STATES TO PROTECT ALIENS WITHIN ITS OWN BORDERS AND THE FALSE AND FAR FETTERED CONSTRUCTIONS PUT UPON THE MONROE DOCTRINE ARE THE REASONS FOR THE MEXICAN TROUBLE. THE PEOPLE OF THE UNITED STATES HAVE FAILED TO ADJUST THE GROWTH AND DEVELOPMENT OF THEIR COUNTRY TO THE LARGER PRINCIPLES OF INTERNATIONAL RELATIONS.

We are at the present moment witnessing one of the most serious consequences of this lack of adjustment. It is affecting the international position and influence of the United States to a degree which cannot help arouse the grave concern of every thoughtful and patriotic citizen. In a brief period of fifteen years we seem to have sacrificed the position of leadership in the maintenance of world peace and HAVE BECOME ONE OF THE DISTURBING FACTORS IN WORLD POLITICS.

## Children Who Are Sickly.

Mothers who value their own comfort and the welfare of their children should never be without a box of Mother Gray's Sweet Powders for Children, for use throughout the season. They Break up Colds, Relieve Feverishness, Constipation, Teething Disorders, Headache, and Stomach Troubles. Used by Mothers for 24 years. THESE POWDERS NEVER FAIL. Sold by all Drug Stores, 25c. Don't accept any substitute. Sample mailed FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

## CHAUTAUQUA REPORTS GOOD.

The same chautauqua program which is to be given here June 29 to July 4 is now being presented in other towns of the Ellison-White system. The season opened June 3rd at Auburn, Cal., and a new chautauqua on the system has started every day since. Press reports from Auburn, Lodi, Modesto, Fresno, Merced and others of the 20 California cities which have this program during June are unanimous in the verdict that the outlay of good things this year is far better than that of last year, good as that was.

The band and grand opera company are drawing the largest audiences, but every town reports the one big, bigger, biggest hit is none other than a lecturer, Dr. Thomas E. Green. He seems to have struck the popular chord in his new lecture as he has never done before. In fact, it is doubtful if any lecturer in a generation has succeeded so marvelously in opening up a new world of ideas to his audiences as Dr. Green is doing on his present tour. He has caught the spirit of the prophets of old, and is revealing to the people of today the glories of a new day when universal peace shall reign.

The Dunbar ladies singing orchestra is another attraction which is capturing popular fancy of chautauqua audiences on the Pacific coast. They change costume three times during the entertainment and are most vivacious; yet there is nothing of vaudeville nature about it. Here seems to be something different from any attraction which has come this way. Bronto, the smartest dog in the world, is by no means at the bottom of the list of favorites.

## BOYS FOR CAMP SCHOOL.

The county of Multnomah has arranged to send two boys, who may win first prizes in industrial projects, to the school and camp conducted by the state department and the state agricultural college at the state fair in Salem next fall. By the terms of membership the school will be made up of two boys from each county, and these Multnomah boys are the first reported for membership by Superintendent J. A. Churchill.

## The New Cliff House

Nye Beach, Newport, Oregon  
Now Open for the Season

All that's cheerful, all that's best  
Here awaits the welcome guest  
Who flees from toil and moil to rest  
By the sundown sea of the golden west  
Board and Lodging at Reasonable Rates.  
For information, etc., write  
W. D. WHEELER.

## APPROACHING

## BALDNESS

May Be Checked by Using  
Herpicide.

The above expression is one which is used frequently in connection with hair preparations. Just exactly what is meant by it in each instance is a question. Baldness is not a disease and hence does not permit of a cure. It is a result invariably to be traced to the danifuric germ and if the condition has become chronic, that is, if there is complete atrophy of the hair follicles, a "cure" is absolutely impossible.

Approaching baldness, seen in falling hair, may always be checked, and if the hair follicles are not atrophied the hair may be induced again to grow.

This is accomplished by regular applications of Newbro's Herpicide, which cleanses the scalp and stimulates danifuric growth.

Soft, glossy, fluffy hair cannot grow on a scalp infested with danifuric any more than a delicate plant can grow on an ash heap. The scalp must be kept clean and free from danifuric. The best remedy for doing this is Newbro's Herpicide which receives the highest endorsement from professional men, the stage and the best people everywhere.

Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied, your money will be refunded.

Applications obtained at all first-class barber shops and hair dressing parlors.

Address The Herpicide Co., Dept. B, Detroit, Mich., enclosing 10c in postage or silver for sample and booklet.

## Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is serious but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

P. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.
